Since 1998, Webster Data Communication, Inc. has been providing results-based solutions that help enable federal government agencies achieve their IT objectives efficiently and cost-effectively. Our customer base includes the U.S. Navy, U.S. Air Force, the State Department, and the Defense Advanced Research Projects Agency.

At Webster Data, we know that effective IT solutions are not one-size-fits-all. We develop our core capabilities into repeatable solutions that are customized on a project-by-project basis to fit the unique needs of specific federal agencies. Our solutions are developed in conjunction with our federal customers, who drive mission objectives and requirements. This flexibility helps ensure that our federal customers receive the same quality of service on all projects at all times.

Webster Data forms **partnerships** and **strategic alliances** with companies that share our commitment to customer service.

These companies include:

- Electronic Data Systems (EDS)
- RS Information Systems
- Scientific Research Applications (SRA)
- Booz Allen Hamilton (BAH)
- Lockheed Martin
- EDO Corporation
- Netco Government Services
- Engineering Professional Services (EPS)
- Global Knowledge
- GES Technical
- TekSystems
- General Dynamics
- OTIS Corp
- DC PHP

Webster Data services are available via numerous **federal contract vehicles**, including:

- **GSA Schedule 70** – IT Services – GS-35F-0075P
- **Seaport-e** – Prime Small Business – N00178-05-D-4658
- **NETCENTS** – Network Centric Solutions (with Lockheed Martin)
- **COMMITTS** – Commerce Information Technology Solutions (with Technology Concepts and Design, Inc.)
- **DHS Eagle & Seaport-e** (large business awards)(with EDS)
